

For the wisdom and will to protect our environment:
open our eyes, Lord, to the impact our choices have on the unseen other
that we might change our way of life to protect the fragile world in which we live.
Let pray to the Lord.

For the wisdom and will to protect our environment:
teach us to recognize that your gift of creation has been given for all
that all generations may thrive on earth and give glory to your name.
Let pray to the Lord.

For the wisdom and will to protect our environment:
fill our hearts with true joy and lead us from consumption to live simply
that others may simply live amid the bounty of your creation.
Let pray to the Lord.

For the wisdom and will to protect the environment:
rain down your Holy Spirit on your people, O Lord,
and enkindle within us the zeal to stand in solidarity with the millions affected by climate change.
Let pray to the Lord.

For the wisdom and will to protect the environment:
breathe into us, O Lord, the sweetness of your life
that all creation may know the goodness of salvation:
let pray to the Lord.
